

Dear Parent or Guardian,

If your child is currently receiving free or reduced priced meals and you have not completed a new on-line application for the 2017-2018 school year or have not been notified by mail of a direct certification which allows you to bypass filling out an application, please remember, you must complete a new application on or before September 20 to continuing participating in this program. Failing to complete and submit a new application by the September 20 deadline will result in your child's meals automatically reverting to full price status on September 21. Any meal charges accrued from September 21 until a new application is completed and submitter will be the sole responsibility of the parent or guaridan of the child as applications are not retroactive.

Please note, free and reduced applications can be filled out on-line at any time during the school year if circumstances change. However, benefits are never retroactive. They begin from the date of an approved application.

Please sign into your Skyward parent portal to complete a new application is you wish to and have not yet done so.

Thank you,

Jean Harden

Food Service Director
